

THE AUTOSPA

at 3131 E. CAMELBACK

The World's Biggest
Eco-Friendly
Hand Car Wash

As featured on **CNN**

Welcome to this new amenity. Get your vehicle **hand washed** and **detailed** while you work. We're pleased to be at your service **on site, every day of the week** (except bad weather-days & holidays). You'll like how easy this works (two steps as detailed below); you will **save time, save gas** and you'll love the **convenience & the way your car will look**.
Thank you for your business.

Step 1

BOOK SERVICE ONE DAY ahead by EMAIL (email us at 3131 @OfficeAutoSpa.com). Tell us 5 things: CAR/model, SERVICE you want, PRICE you expect to pay, DATE/Time Window of service & your ADDRESS/Tel No.). Let us know any schedule limitations (eg "I must leave by 12pm") Booking is recommended as "same day" requests are not guaranteed; we will confirm by email.

Step 2

PARK & Your Car is SERVICED On The Spot. Upon arrival and parking, contact us by email to let us know you're on site. We'll pick up the keys at your suite at the appropriate time (based on 1st come-1st serve basis) & service the car. Please note that depending on scheduling, your car keys may not be picked up for service until later in the day (keys are only picked up when the service is about to start). Payment is collected when keys are returned. Please note: credit/debit cards only. No cash or checks.

ProntoWash is the world's biggest **eco-friendly** hand car wash company, offering on site **waterless**, 100% hand wash and detailing services in the parking areas/garages of upscale Office Buildings, High-Rise Condos, Hospitals/Medical Buildings, Shopping Malls/Lifestyle and Entertainment Centers. ProntoWash is a revolution in car wash technology. Our customers love the convenience and love the way their cars look.

Today, ProntoWash operates in many major metropolitan areas and popular destinations including Beverly Hills, Boca Raton, Miami, Palm Beach, Buenos Aires, Los Angeles, Las Vegas, Rio De Janeiro, Dallas, Houston, Mexico City, Tampa, San Diego, La Jolla, San Francisco, Madrid, New York City, Charlotte, Washington DC, Orlando, Santiago, Atlanta, Puerto Rico and many other cities. ProntoWash has established national contracts with all major shopping mall operators and property management companies in the US.

Here in the Phoenix area, you can find us Hayden Ferry Lakeside, Scottsdale Fashion Square Mall, Paradise Valley Mall, The Camelback Esplanade, Collier Center/Bank of America tower and coming soon at the Biltmore Fashion Park mall, Kierland Commons, SanTan Village and the Intercontinental Montecito Resort & Spa in Paradise Valley among other locations. Outside of Phoenix, we've recently opened at Dallas Fort Worth Airport and Universal Studios in Orlando.

We're excited to announce that ProntoWash and Procter & Gamble have joined forces, and together recently opened their first 'Mr. Clean' branded auto spa, located in Downtown Cincinnati.

Eco-Friendly & Waterless.

ProntoWash's "waterless service" concept is designed to offer a "green" alternative to car washing, and showcase our responsibility to our environment.

We have a cleaning methodology that's the most Environmentally sound and Eco-friendly in the industry. It is based on a patented technology and process that allows for a vehicle to be washed and cleaned with less than a 1/4 gallon of a proprietary biodegradable solution that ensures a completely dry floor at all times(hence the use of the term "waterless"). Just to give you an idea, the amount of water used in each flush of a toilet allows us to wash at least seven vehicles!!

This cleaning system produces no run-off whatsoever, therefore no drainage is required and the parking spaces or the garage where we operate are kept spotless at all times.

ProntoWash is Process and Technology-Driven.

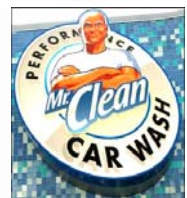

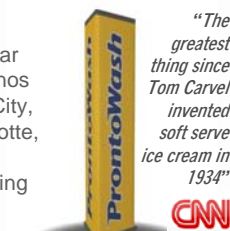

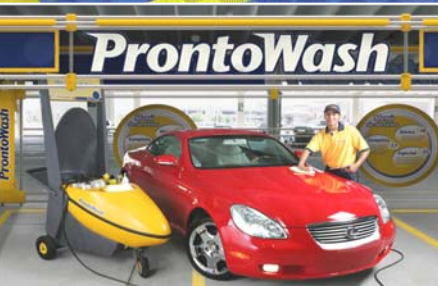

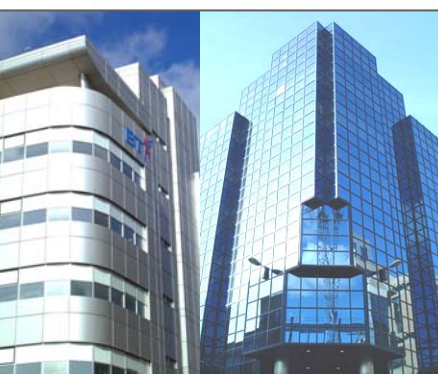

Uniformed technicians using proprietary ProntoWash cleaning products, patented Mobile Detailing Units and hand-held/portable devices & intranet systems ensure that we offer quality, speed and "best in class" service to our customers. A multi-level organization in turn supports each single operation 7 days a week and 365 days a year.

"Imagine... No Water, No Hoses, No Buckets, No Waste, No Mess."

think **ProntoWash...**
think **Green!**
think **Waterless!**

WHEN WASHING YOUR CAR WE USE LESS THAN 1 1/4 FL OZ WATER PER CAR WASH.

THANK YOU FOR YOUR BUSINESS.

Did you know that we use less than One Pint on average to wash each vehicle?

Member
US Green Building Council

Responsibility to the Environment and to our Community ProntoWash is the first car care company in the industry to be truly eco-friendly. Our "waterless service" concept is designed to offer a "green" alternative to car washing, and showcase our responsibility to our environment. We have a cleaning methodology that is the most Environmentally sound and Ecologically friendly system than any other car wash system. It is based on a patented technology and process that allows for a vehicle to be washed and cleaned with less than a 1/4 gallon of water mixed solution that is nontoxic, biodegradable and petrochemical-free, ensuring a completely dry floor or ground at all times(hence the use of the term "waterless"). This unique methodology is the primary reason why so many companies and organizations have selected us to care for the cars of their employees, customers and associates.

This cleaning system produces no run-off whatsoever, therefore no drainage is required and the parking spaces or the garage where we operate are kept spotless at all times.

Why do we describe our wash as a "Waterless Car Wash"? ProntoWash uses a technique with patented equipment and biodegradable liquids to wash vehicles with minimum water. This technique uses liquids that contain many different ingredients which combine to soften and emulsify surface grime, and lift the dirt from the vehicle by emulsification. The solution surround the dirt molecules, lifting them from the paint surface, and with the use of Micro fiber cloths, we wipe the solution off the vehicle. This technique allow us to wash vehicles without using soaps, buckets and water hoses. Because the solution and the dirt is lifted off the vehicle with the micro fiber cloths, there's never any run-offs, or liquid of any type on the ground. Hence the term 'waterless'. Why go Waterless? Many reasons including...

Water Savings – washing a vehicle uses a lot of water. Clean water is a limited resource, expensive and precious.

Environmental Concerns – ProntoWash products are not harmful to the environment. All products are biodegradable, non-toxic and 100% environmentally safe.

Using Water Scratches the Paint – When you spray a car with water, you remove the majority of visible dirt and grime, but leave behind a thin layer of dirt on the surface. The use of a sponge, chamois or a car wash's brushes often grinds the remaining dirt into the paint, creating "feather scratches". Using our waterless approach lessens the effect of these scratches.

"Imagine. No Water on the floor, No Hoses, No Buckets, No Waste and No Mess."

That's No Way To Wash A Car!

Do your part. Save water. Be eco-friendly. It's never too late to change. Call us, and we'll show you how.

Worldwide, ProntoWash also operates at many companies, high end resorts and condominiums, hospitals, malls, entertainment centers, airports and major sporting events. We are proud to be the service provider of choice for many of the world's leading organizations. Here in the Phoenix area, we are very pleased to announce our partnership with INTEL CORPORATION at the company's Chandler campuses, servicing the eco-friendly car wash needs of close to 20,000 employees.
